## INTRANET DRAWING DISTRIBUTION SYSTEM

The need to provide staff with timely, accurate and up-to-date technical information is now seen as a key issue in maintaining competitiveness and increasing efficiency.

Radan has developed Radview to provide **Radan 03** users with a cost effective means to access drawings electronically across their computer networks.

Radview's web technology gives improved and more timely access to engineering drawings, resulting in lower administration costs and fewer delays.

Customer service and response to supplier queries is improved by providing rapid access to drawings.

Radview can be deployed on the shopfloor to provide access to drawings, helping facilitate concurrent engineering activities.

### Radview benefits:

- Company wide access to drawings.
- Lower administration costs.
- Immediate access.
- Improved customer service.
- Shop floor access via DNC option.
- Reduced cost of consumables.
- Easier document control.
- Exploits existing corporate network infrastructure.
- An integrated component of **Radan 03**.
- Ensures right job, in the right place, at the right time.

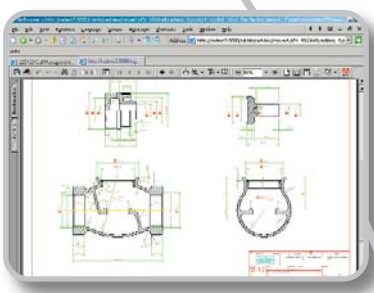

The most powerful sheet metal software in the world

 **RADAN** 

# Radview

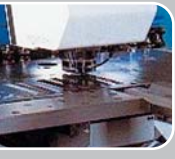

### Company wide access:

- Faster and wider access to Radrafft drawings to improve customer query response.
- Local and wide area networks utilising 'World Wide Web' technology.

Easy access to Radrafft drawings

### Radview DNC

Flexible, controllable and visual DNC for punching and profiling machines.

Radview DNC provides the machine tool operator with the ability to view detail drawings, nests of components, work instructions and to feed programs to the machine tool with speed and efficiency.

#### Benefit highlights:

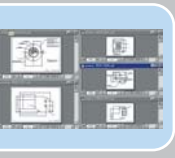

Radview DNC enables machine tools to be used as effectively as possible and gives the operator information needed to manufacture to a current production schedule.

#### RadviewDNC offers:

- shop floor graphics.
- ease of use.
- production resource usage data.
- simple CNC program loading.
- robust technology.
- remote and multi-site operation.

### RadviewPlus

RadviewPlus gives straightforward, effective and secure control of drawing distribution. It is simple to use, takes advantage of existing networks and is quick to implement.

RadviewPlus extends Radview's ability to view drawings, to include scanned images, old drawings,

design specifications and spreadsheets. In addition, RadviewPlus allows feedback from users and gives an increased level of control.

#### RadviewPlus offers:

- intranet-based drawing and associated document management.

- paperless, straightforward, effective and secure control of drawing distribution.
- ease of use.
- saves on labour time.
- expands on Radview's facilities by extending file types managed and increases manipulation of data.

Radan provides unrivalled after-sales service, including:

- Direct PC-PC support.
- Training at customers site or Radan's offices.
- Consultancy & customisation.
- Affordable software maintenance.
- Competitive upgrade policy.
